PROFESSIONAL SUMMARY

Software Engineering with 3 years of experience in web development. Skilled in PHP , LARAVEL and JavaScript frameworks for building scalable web applications, APIs, and database systems. Experienced in frontend and backend development, integrations, and cloud deployments. Familiar with Agile/Scrum teamwork and DevOps practices. Strong problem-solver with a focus on delivering reliable and user-friendly solutions.

WORK EXPERIENCE

Web Developer | Sahalat LLC | 16 Oct 2022 – 31 Oct 2025 (company closed)
Led the development of core company systems and custom web solutions. Collaborated with teams to deliver scalable, secure, and user-friendly applications. Worked on CRM, API integrations, and chatbot systems.

Web Developer | Innotech Company | 31 Jan 2020 – 31 Oct 2023
Contributed to building e-commerce and corporate websites. Assisted in deployment, maintenance, and technical support of web applications. Supported SEO and performance optimization tasks.

Software Engineering Training – Ministry of Interior (Feb 2021 – Apr 2021)
Worked with a team on web development projects using PHP and Java, focusing on problem-solving and improving system performance. Gained practical experience in teamwork, debugging, and applying software engineering principles.

PROJECTS

Muain CRM & Services System – Sahalat LLC :
Laravel-based CRM system integrated with Ministry services. Built with Laravel 8, AJAX, MySQL, real-time socket notifications, and Bank Muscat payment gateway. Included modules for identity verification, user roles, workflows, statistics, and employee task handling.
